Burgdorf Case Not a Precedent. Mr. Chapin Brown, attorney for Mr. James Donald Cameron, has been informed by the District Commissioners that they do not feel justified in quashing a water main assessment against Mr. Cameron's property in Rossie Park. Mr. Brown requested that the assessment be quashed, agreeing, in such an event, not to oppose a reassessment after the water has been actually introduced upon the premises, and explaining that there is no desire on the explaining that there is no desire on the part of his client to avoid the ultimate payment of the tax. The Commissioners are of the opinion that the case does not come within the decision of the court in the Burgdorf case, being assured that in the case of Parsons against the District the United States Supreme Court has decided that an assessment like the one in question is a proper and legal one.

#### DEATH UNDER THE WHEELS

School Boy Fatally Injured by a Train Near Bowie.

Charles Wallace, a schoolboy, who recently celebrated his tenth birthday, was thrown beneath a moving train at Bowie, Md., yesterday afternoon. His left leg was terribly mangled, and he was also internally injured. He was brought here on the first train and taken to Providence Hospital. where he died about 8 o'clock last night. This morning the body of the dead boy was taken to the home of his parents at Bowie, and it is possible that the county coroner will hold an inquest.

West Wallace, father of the boy, is employed as an engineer on the Pennsylvania railroad and lives at Bowie. The county school closed several weeks ago, and Charles has been spending his vacation in part in playing about the station with his companions. When he left home after din-ner yesterday he went down the road a short distance, where there was a construc-tion train. He had been in the habit of playing on cars, it is said, and had become a little careless. He sat near the end of one of the flat cars, and the sudden starting of the train threw him off. The wheel passed over his leg before the train could
